

Selectmen's Notes

We hope you all enjoyed your Memorial Weekend. A small group of us took down the backstop at the wire bridge field, in the rain showers. The paths have been raked, the bridge was swept off, large fallen branches were cut up and removed. Thanks to all that helped.

We hired Pat Mitchell, from Carrabassett Valley as our new Road commissioner. We will be working closely with him to help improve our road conditions. If you see a road crew working, please slow down and give them the space they require.

We would like to hold the first meeting to form the new Municipal Advisory Committee. This meeting will decide where we start in meeting the towns goals. Do we start with the comprehension plan, possible owning our own year-round public works or the burden of school cost. If you are interested in being a member of these committees, please attend the Selectmen's meeting on June 16th, held at the fire station.

There will be changes coming to the transfer station. The new plans will start around the first of July. The transfer station board has another meeting to finalize the changes on June 26, 2025.

We do know that you will be required to come to the town office to obtain a new transfer station sticker for your vehicle. This may happen by July first. We are trying hard to keep you informed on these matters but it is a work in progress.

Let's all be friendly and check on our neighbors. Out for a walk, please pick up any litter you might see.
